

From the dawn of time, when your voice called out  
Giving all creation birth  
Making day and night, naming every star  
Breathing life upon the earth  
The rocks and hills have praised your name  
All nature sings with joy

*Creator of the universe we worship you  
Maker of all heaven and Earth  
We give you glory  
Alpha and Omega,  
The beginning and end  
Forever you shall reign*

From our new born cry, to our dying breath  
All our days are known to you  
Every hope and fear, every laugh and cry  
You are here our whole life through  
You chose and know each one of us  
And call us all by name

At the end of time, when your voice cries out  
Calling those who own your name  
Every knee will bow, every tongue confess  
Every nation will proclaim  
That You are Lord of heaven and earth  
The king above all kings
